\* Internal link to Forages – there is no crop Multipurpose trees

icrisat-02

\* **Clean up information about documents**

\* Internal link to Chickpea, finger millet, pearl millet, pigeonpea, sorghum

iita-01

\* Internal link to Banana, cassava, cowpea, maize, yam

ilri-03

\* **Clean up information about documents**

\* Internal link to Forage grasses, forage legumes – There is no crop for Forage tree species

irri-02

\* **Clean up information about documents, video**

\* Internal link to Rice

## **Tools & Resources**

crop-strategies-01

\* **Clean up text**

\* **Get permission to make Khoury et al. (2010) available as download**

crops-03

\* **Decision on grid of crops**

# ***NB***

- If crop file not mentioned, no specific queries
- All need their documents linked to

banana-04

- \* Internal links to files

barley-02

- \* Internal link to genebank

chickpea-02

- \* Query about number of species
- \* Query about ICARDA location

forage-legumes-03

- \* Links needed for some regeneration guidelines

wheat-01

- \* Some documents are in other folders; need correct links and tags

oats-01

- \* Some documents are in other folders; need correct links and tags

**Performance Indicators/the Platform What is this for?**

**Performance Indicators/ Genebanks What is this for?**

**Need decision on Data Management; seems to be repeat of Information systems?**

decision-support-tool-02

- \* Internal links to files

genebank-operations-02

- \* Many internal links to pages and documents

stog-02

- \* Many internal links to pages and documents

**Publications: no text yet; what do you want?**
